Associate EMT Associates, Inc. Grant  
Writer

**Beatrice Rodriguez**, (Not Seen on  
Facetime) Owns - Braingeners Labs,  
Computer Science Engineer, Liaison with  
the Hispanic Community

With Spring Break around the corner, if you are visiting museums or anywhere your preschooler might not be engaged, then play "I SPY with my little eyes." Your child will have fun learning. For young children, look in the direction of the object. For older children, be careful not to look.

"I SPY" will boost a child's concentration, teach them to listen carefully, and stimulate their thinking skills and language development. If playing with more than one child it will develop social skills as well.

**Empowered Parents share 72 "I Spy with My Little Eye" Game Ideas.**
